

## Texas LNG, Magnolia Projects to Reach FID in 2023: Glenfarne

By Sergio Chapa

(Bloomberg) -- Glenfarne Group plans to reach final investment decisions next year on a pair of projects that will export a combined 12.8 mtpa of US LNG, Vince Morrissette, senior vice president, told attendees at the Gulf Coast Energy Forum in New Orleans.

- Proposed 4 mtpa Texas LNG project seen reaching FID 1Q23
- Plant expected to be in service in 2027
- Proposed 8.8 mtpa Magnolia LNG project in Louisiana seen reaching FID in 2023
- Plant expected to be in service in 4Q27 or 1Q28
