## WGC 2018- The 27th World Gas Conference June 25-29, 2018

The 27<sup>th</sup> World Gas Conference is the largest and most high-profile global gas conference and exhibition.

From June 25-29, 2018, Washington DC is expected to host **12,000** attendees, **500** speakers and **350** exhibitors representing more than **600** companies from **100** countries.

Presented by the International Gas Union (IGU) and run since 1931, the World Gas Conference has **85 years** of experience of bringing the gas industry together and delivers **excellent insight**. It creates **exceptional business and learning opportunities**, **outstanding networking**, and promises great **return-on-investment**.

The program benefits from the **unrivalled expertise** of more than **1,000 industry specialists** representing 30 countries of the IGU's 11 committees and two task forces. During the three year period they work together to prepare a program that is **unique** amongst other global gas events featuring **500 speakers** and designed to attract **4,000 conference delegates**. The program will address the most up-to-date business critical issues facing the global gas industry.

The **12,000+** attendees of the gas industry are made up of policy makers, influential leaders, buyers and sellers, industry and technical experts, customers, NGOs, media, members of the financial community, and others.

It is the first time ever that the World Gas Conference will be held in a country that is both the largest producer and consumer of natural gas. WGC was last held in the USA in 1988, and it will likely be decades before it is held in the USA again.

For further information, please contact at [info@wgc2018.com](mailto:info@wgc2018.com) or on +44 20 7978 0019.
