

Promoting responsible energy development.

Certified Responsible Natural Gas *Mid-Continent LDC Gas Forum*

September 13, 2021

About Equitable Origin

We partner with business, communities and government to support responsible energy development.

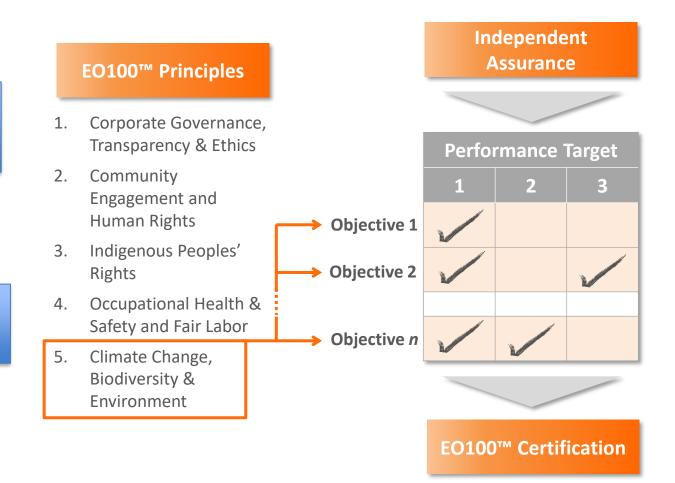

EO100[™] Standard for Responsible Energy Development

Umbrella standard encompasses all forms of energy development

EO100[™] Standard for Responsible Energy Development

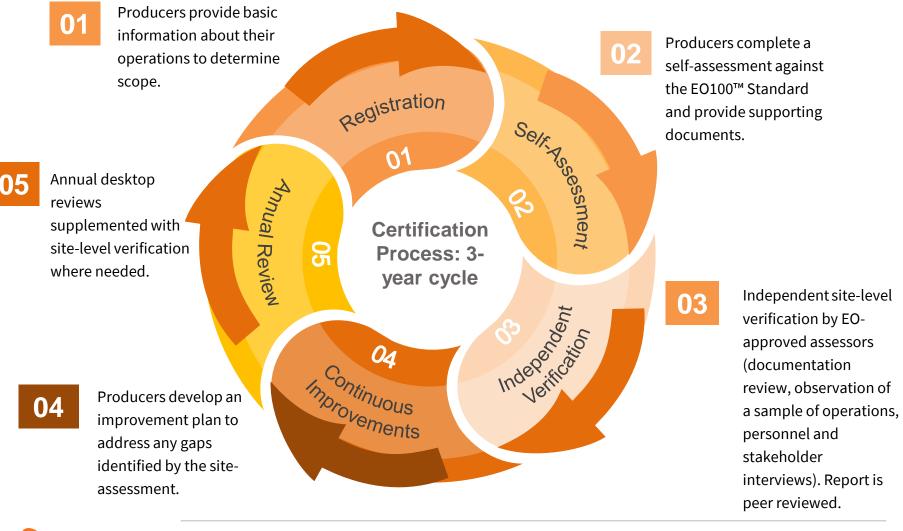

EO100[™] Natural Gas Technical Supplement

> Upstream: Production, gathering and boosting, processing

EO Certification Process

Certification Claims and Public Reporting

- Certified sites and producers will be listed on the EO website along with a report summary that includes:
 - Basic company and site information
 - Performance summary by Principle
 - Overview of the assessment process
- Producers are licensed to use the following trademark as long as they clarify the scope of the certification (specific sites or geographies, as appropriate):

Partners and Buyers
