LDC GAS FORUM | MID-CONTINENT | 2021

Trellis Energy

TRANSFORMING THE NATURAL GAS SUPPLY CHAIN

To achieve a reduced carbon footprint, all segments of the natural gas industry need to **modernize and digitalize**.

We collaborated with our clients on their needs and vision to embark this transformation.

MODERNIZE AND DIGITALIZE

Each of the items below are critical steps
but fall short when done in isolation:

Transition to the cloud and SaaS solutions

Capture, structure and analyze data

Seamless communication across all parties
(internal and external)

Sharing of information for better alignment

Consolidation of pipeline and storage provider
data

Easy integration of supporting services and data
(e.g., exchanges, prices, storage data, weather)

B2B MARKETPLACE

Combined they are a B2B marketplace.

A modern cloud-based platform for all natural gas value chain participants.

With a marketplace, you can:

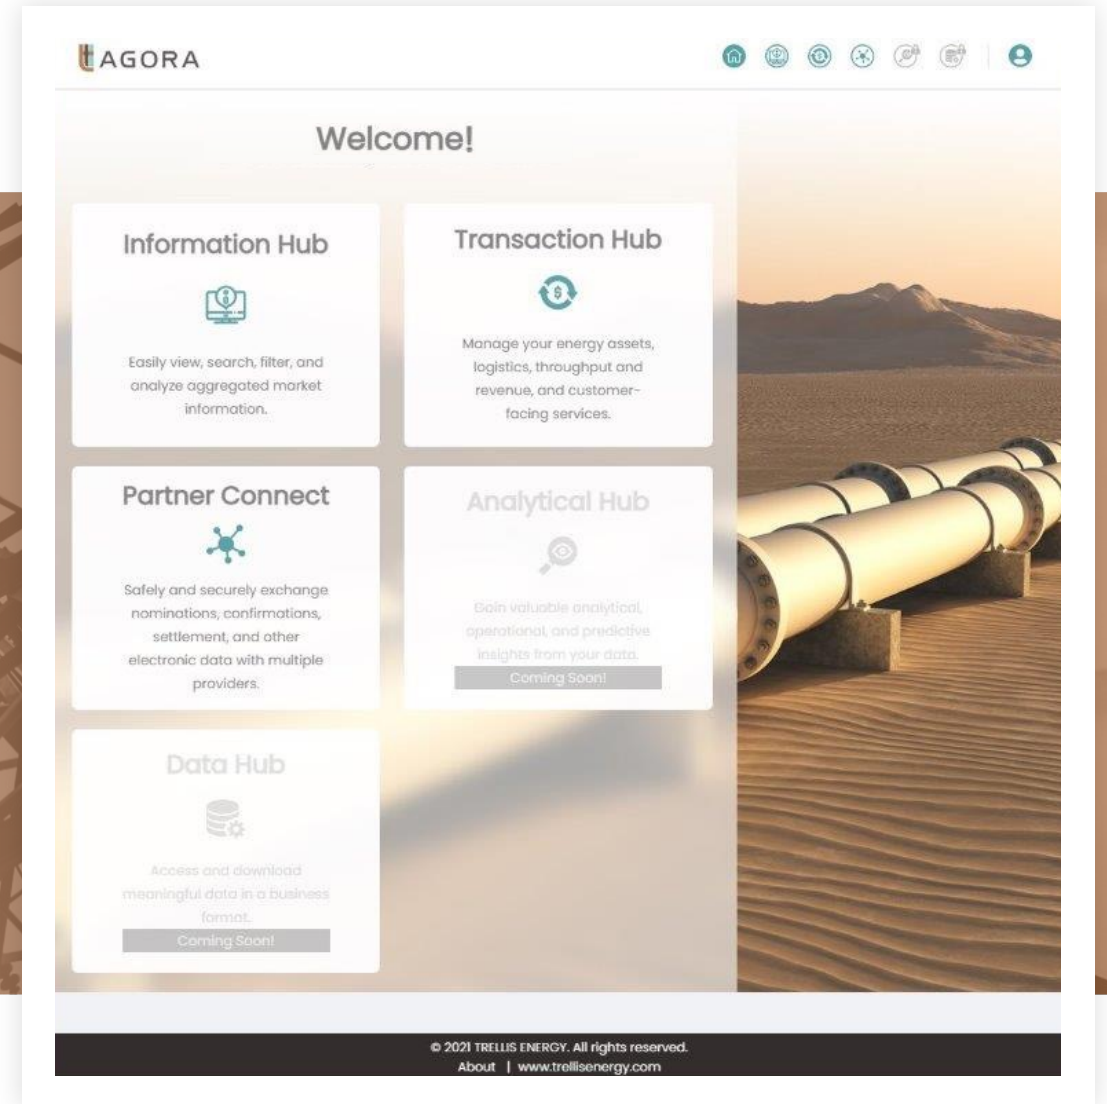

- | | | |
|--|--|--|
| ✓ Bring all market participants together in a single ecosystem | ✓ Communicate transport and storage transactions across parties | ✓ Integrate within your IT ecosystem |
| ✓ Buy & sell natural gas | ✓ Obtain value add services such as suppliers, asset managers, and market makers | ✓ Adhere to regulatory, audit, and SOX standards |
| ✓ Find and secure capacity | ✓ Find data providers for pricing, trends and market analysis | ✓ Provide “open access” to the industry |

TRELLIS AGORA

Trellis Agora is the industry's first SaaS B2B marketplace for the natural gas market.

Trellis Agora provides the first consolidated platform where all supply chain participants, including producers, transporters, shippers, marketers, brokers, utilities, and end-users, can converge to conduct mission-critical business.

STATE OF THE ART INNOVATION

At Trellis, our team is comprised of **industry experts** who know how to leverage our platform to **solve your business needs**.

Our team is always available to help you troubleshoot or discover new ways to increase your efficiency.

50+ dedicated professionals

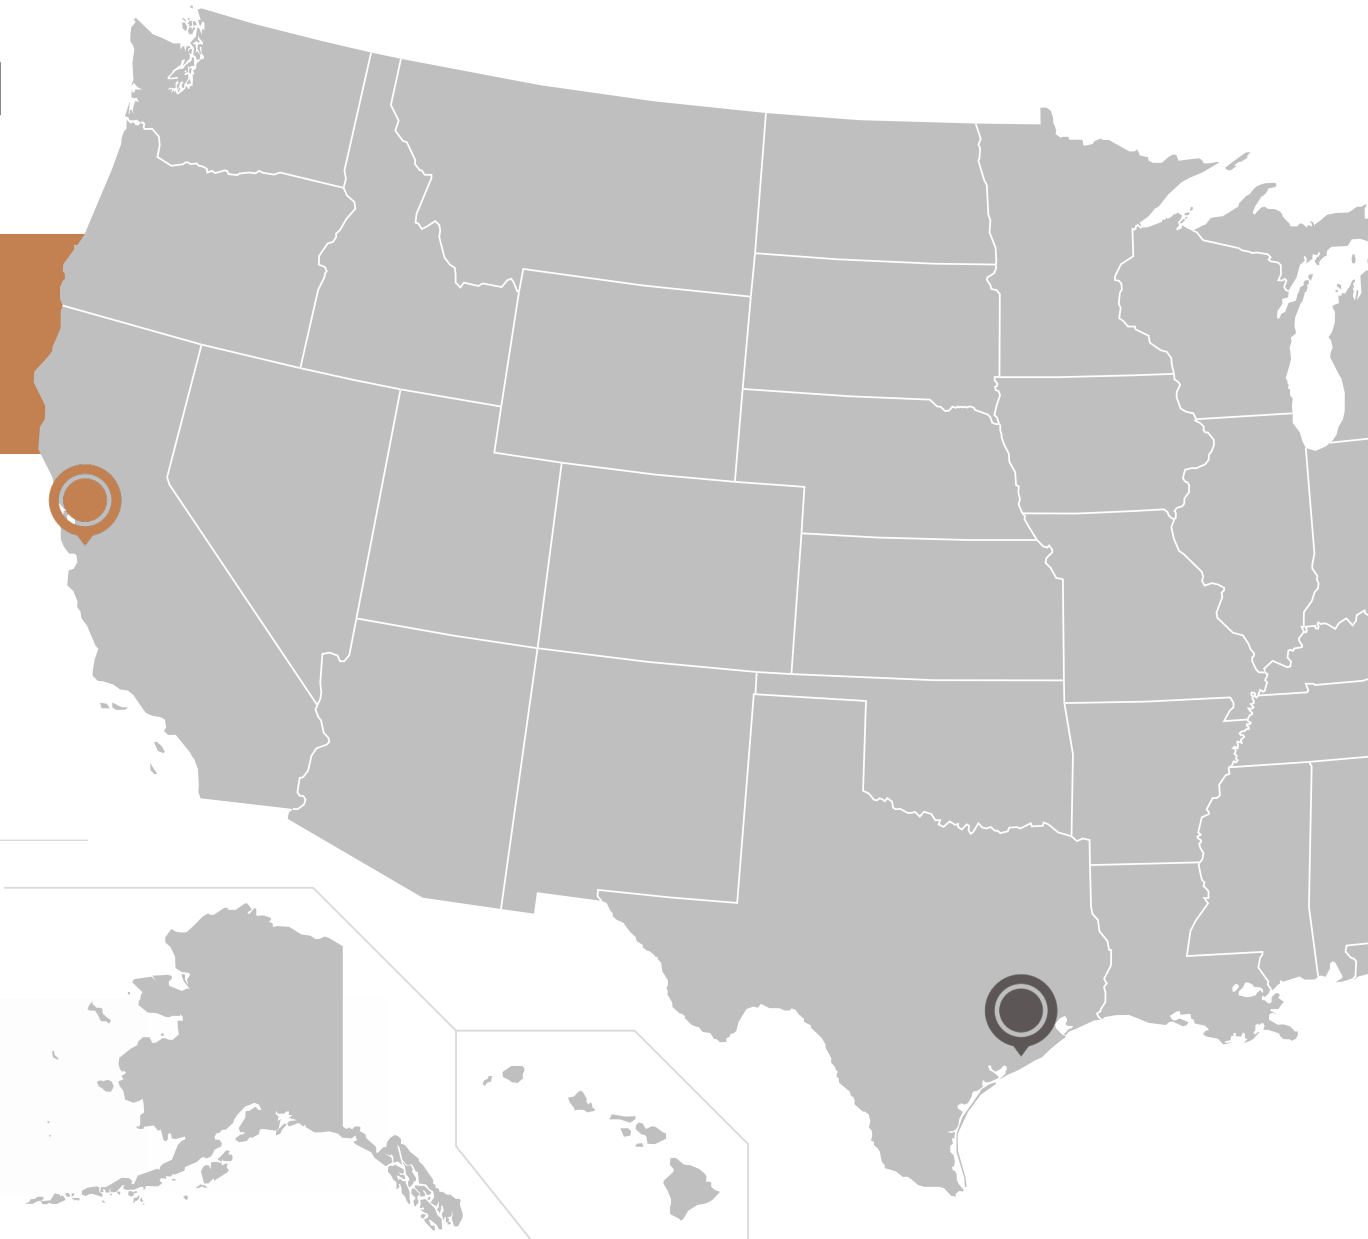

10+ years of profitable results

Offices in:  San Francisco  Houston
